This is a Cherokee Lance II.  
300HP Lycoming IO-540-K1G5D.  
TBO 2000 Hours.  
Engine S/No L-18-48A.  
Eng not affected by SB569A/AD2006-20-09.  
Engine last overhauled "Factory" 4/Nov/99.  
MTOW 3600Lbs/1633Kgs.  
2nd Altimeter.  
Electric clock.  
Electric Turn Co-ordinator.  
Collins Vacuum AI.  
Backup electric AI.  
Backup DI.  
Generally maintained on 'no expense spared

Hangared for most of the past 20 years.  
Factory corrosion proofed.  
All windows replaced c.2005 inc windscreens.

## **Known History:**

The current owner (VERY proud of his aircraft) bought the aircraft in January 1990 and it has been flown exclusively by him (an Instrument Rated pilot) and a Professional Pilot friend. He says he has replaced "almost everything" over the past 20 years and this includes a "carte blanche" [i.e. told to replace "anything that shows signs of wear"] Annual Inspection in January 2009 by the famous Colton Aviation. The bill was around GBP£26K.

## **Interior Details**
